

iMRS

Rent-to-Try Program

The iMRS Professional System includes all three PEMF applicators: the full body mat, pillow applicator, probe and a control unit... everything you need to treat all parts of the body.

The Professional system produces the same frequencies, intensities and waveforms as the new iMRS Prime systems. Changes include an upgraded controller and options like Far-Infrared, Solfeggio frequencies and running two applicators at the same time.

Rent an iMRS Professional System for two weeks at \$150 per week or a total of \$300. A security bond of \$500 is required for contingent recoveries and will be fully refunded subject to the satisfactory return and condition of the iMRS system.

If you would like to purchase a new iMRS system after the return of the IMRS rental system, then a new system will be shipped to you separately after confirmation and payment of your order.

The iMRS Professional System comes with a full body mat. It also includes a pillow pad and a probe for local applications. The three applicators will provide you with the full line of PEMF applicators available. It is possible to extend the rental period or return the system (you pay the shipping, if applicable) after the trial period, and you will get your full security bond back. **TWO WEEKS USING THE SYSTEM TWICE A DAY IS USUALLY AMPLE TIME TO SEE RESULTS IN MOST CASES!**

SETUP + TRAINING ON RENTAL UNITS: The iMRS system is very user-friendly. Set the supplied times and intensities on the controller. You will receive simple instructions on the unit to achieve the best results! Setup and training are done by email, videos or the phone. Proper use leads to superior and quicker results!
